No Report Yet Finds Leg Bone Of On Arrival Of Pre-Historic Horse 1st Area Baby

If a child was born to any residents of Frankfort, New Lenox, Green Garden or Orland townships since Jan. 1 this newspaper has not been apprised of the fact.

A call at the hospitals serving this section was made on Tuesday but without results.

Persons have until noon tomorrow, Jan. 6 to report the arrival of a child in the four townships. If none has been born up to then, of course, the time will be extended for another week.

Area merchants offer prizes for the first infant born in the section.

Get Grant For Reading Program In L-W District

Lincoln-Way High School, the six public grade school districts, and the elementary and secondary parochial schools lying within its boundaries have received approval of a cooperative reading project submitted to the federal government. A grant of \$12,965 was allowed.

Mrs. Evelyn Glynn is director of this program. She is in the process of coordinating the work in all of the 12 schools.

The grant is not sufficient to bear the entire cost of the program, it was said, and the participating schools will be assessed to make up what the difference may be.

Rock collector and amateur geologist, Peter Best, 11, Arbury Hills, found a huge bone in the Mokena area. Unable to identify the bone or determine its age, Peter took it to James Konecny, advisor for the Mokena Junior Earth Science Club of Willowcrest School.

Konecny sent the bone to curator David Techter at the Field Museum of Natural History in Chicago, who identified it as the leg bone of Equua, a prehistoric type of horse that roamed the Great Plains between ten

thousand to one million years ago during the Ice Age. The petrified bone is between 10 to 20 thousand years old according to his calculations.

The next meeting of the Mokena Junior Earth Science Club will be held at Willowcrest School on Jan. 14, from 2 to 3 p.m. William Clark of New Lenox will present a program on rock identification.

Co-chairmen for the club are Ronald Hartman and Mrs. Luther Schilling; Mrs. Vivian Shoop is librarian and Mrs. Dorothy Lankenau is secretary-treasurer.

Following their custom of many years the Mokena Lions Club will make their annual pick-up of discarded Christmas greens and haul them off to the sewage treatment plant grounds for burning, under the direction of the Mokena Volunteer Fire Dept.

The pick-up will take place early in the afternoon, it was said. William Bradley Jr., is chairman of the pick-up and Raymond Westlund, co-chairmen. They are looking for help for the task and have sent out a call for volunteers.

See Early Letting Of I-80 Interchange Jobs

The cut-back ordered recently on federal funds which would have delayed work on the interchanges and the spans that would have linked roads separated by I-80 is said to have been rescinded, according to reports from Springfield, so that bids on such work are expected to be let soon.

It is expected that the interchange for I-80 and U.S. 45 will be let within a matter of weeks, it was said at the state capital where considerable discussion was had last week on the highway program.

Also of considerable importance to the area is the report that Freeway 61, a north-south highway beginning at Itasca and coming south to join I-80 north of New Lenox, around U.S. 6, following the general line of present Ill. 53, is up for letting as soon as plans can be completed. There is little likelihood there will be any stalling on the plans, it was said, because with the atom shasher slated for construction at Weston in DuPage county this north-south road is needed.

It was not expected that this road would be built for another 10 years -- possibly less -- until the Atomic Energy Commission decided on Weston as the site for its proposed mammoth plant.

Freeway 61 comes down thru DuPage County, taking a bite out of Morton Arboretum, and then skirting Lemont and Lockport to hook-up with I-80.

New Lenox Township and Village officials, together with the Association of Commerce, the Lions Clubs and various individuals have been working for years to get the state to arrange for an

interchange at Cedar Rd. and I-80 but so far without success. An interchange there which would also link with Freeway 61, would just be common sense, the Lew Lenox people contend but admit that sometimes common sense does not prevail in government projects.

While nothing was said at Springfield last week about the building of a new Wolf Rd., which would begin north of O'Hare Field and come south, probably skirting Mokena to the east and Frankfort to the west. A couple of miles below Frankfort in Green Garden Township this road will turn east and eventually hook up with U.S. 41.

It is expected that this road also would help to provide transportation to the atom plant. Hooking up with U.S. 41 would give this section direct transportation with the north top of Wisconsin and the southeast portion of the United States while I-57 will give direct access to the Gulf of Mexico thru the central south, terminating at New Orleans.

An east-west road which will follow the general line of 143d St., linking with the Stephenson Highway after passing thru Orland Park has also been proposed by the state, and the atomic development at Weston is expected to speed work on this project.

Orland Park Village officials have been working to get work started on the interchange with U.S. 45 and I-80 and were pleased to learn of the reports from Springfield. Release of federal funds to complete the interchanges now also means that the span over I-80 on

80th Av., can be built. This will give Mokena and Frankfort access to Tinley Park via 191st St. The Harlem Av. interchange, which is under construction, will close the 76th Av., onto which traffic turns to reach 183d St., which feeds into Tinley. Having the span on 80th Av. also will give Lincoln-Way High School buses access to 183d St. Will County will build the road from 191st to the span over I-80; 80th Av. will join 191st at the site of the Frankfort Gun Club.

It is expected that the southwest suburbs will get some of the industrial plants that will be needed in the operation and maintenance of the atom plant at Weston and the growth in this section is certain to be tremendous, according to planners.

Names Captains For Palsy Fund Drive At Orland Park

Mrs. Clarence E. Creer, 14228 Union St., Orland Park, chairman of the United Cerebral Palsy fund-raising appeal in that community has announced the names of volunteers who will be aiding in the annual drive on Sunday, Jan. 15.

On that day a corps of 45,000 volunteers will take part in the "53 - Minute March," so named because cerebral palsy strikes a new - born child every 53 minutes -- approximately 25,000 babies will be born with this condition in 1967.

Volunteers "march" so that some day a child may walk. They will call on their neighbors to distribute information and seek funds for United Cerebral Palsy. The marchers have a goal of \$500,000 in the four-county area of Cook, Lake, DuPage and Kane.

There is no known cure for cerebral palsy. The victim lives a normal life span with the condition. The money raised on the door-to-door campaign is used to support the Agency's direct service, research and education programs. Among the direct service programs are a Child Developmental Center, summer day camps, adult activity groups and

family counseling.

It is estimated that there are 21,000 children and adults with cerebral palsy in the Greater Chicago area. The services provided by United Cerebral Palsy are available to everyone in the community.

Volunteers from this area

who will serve as March Captains on Jan. 15 are:

Mrs. George E. Brown, Box 155, R.R. 2; Mrs. Philip Lefevre, 15824 - 113th Ct.; Mrs. W. G. Petrolli, 9329 Oak St.; Mrs. Albert Steffgen, 10228 Hawthorne Dr. and Mrs. J. J. Zeller, 14352 Ridge Ave.

Car Is "Scalped"; Driver In Hospital

A truck owned by William Michener, 35, of 10833 First St., Mokena, improperly parked so that its heavy steel tailgate protruded onto Wolf Rd., put a Bellwood man in the hospital in critical condition, injured his wife, and almost wrecked two other cars.

Michener was arrested by county police, according to the report at the sheriff's office, for improper parking and causing an accident.

Critically injured is George Lee Schaller, 47, 442 S. 24th St., Bellwood. He has severe cuts on the left side of his head and multiple fractures of his nose, jaw and left shoulder. His wife Jennie, 51, was released after treatment for

lacerations on both sides of her face. Schaller is in the intensive care section at Silver Cross hospital in Joliet.

According to the report Schaller was driving north on Wolf Rd., about 2:15 Saturday morning. When his car struck the steel tailgate the top of the automobile was peeled off. Mrs. Schaller slid down to the bottom of the car in time to avoid more serious injuries.

County police reported that shortly before Schaller hit the tailgate that was extended out in the highway, Michael Novak, Mokena, and Joseph Mazarek, Oak Park, both traveling north on Wolf, narrowly escaped a similar fate. Both drivers, however, saw the obstacle in time to swerve and miss it.

The truck was parked in a driveway near 189th and Wolf, the report states.

Frankfort Auto Tags Arrive - Now On Sale

Village auto licenses are now available at Frankfort. They really are on hand and may be purchased at the village hall. The stickers were to have been put on sale several weeks ago but the manufacturer shipped the wrong ones at the beginning and didn't send out the second batch at the time Village Clerk Walter Pfaff was told they would be delivered.

But now the tags are here. The license fee for passenger cars and trucks under one ton is \$5; for trucks

over one ton and under 24,000 pounds the fee is \$7.50 and for trucks over 24,000 pounds the fee is \$10.

The first stickers received had to be sent back because they were of the same colors and design as those for 1966.

After Feb. 1 the fees will be double the present scale, Pfaff reminded vehicle owners.

The money collected through such fees is used on street maintenance and repair within the village.

Register Now For CSHS Swim Program

New registrations are now being accepted in the swimming program at Carl Sandburg High School, aquatic director Alan Gillberg announces.

While earlier in the year, people stood in long lines to get into various aspects of Sandburg's comprehensive swimming program, and some had to be turned away,

now there is room in the adult, family, and recreational programs, Gillberg said. Those who were on the waiting lists are being called, he said.

The pool is open Monday nights for open recreational swimming, when anyone can come. On Tuesday nights, the pool is available for adult recreational swimming. People who are past high school age are welcome. Thursday night is family swim night, and there is room for more.

For further information, call 448-8000, extension 8-50.

Yule Basket Committee Grateful

The Christmas Basket Committee at Orland Park has expressed its gratitude to organizations and individuals who made the project possible thru their donations of money, toys and food.

MORE THAN 300 Future Farmers of America leaders from Illinois high schools attended the annual Farm Bureau-FFA conference on the campus of Illinois State University at Normal, Dec. 27-29. Thinking Big, Way To Success, FFA Told

The president of the Illinois Agricultural Association (state-wide Farm Bureau) urged some 350 high school Future Farmers of America members to think big enough to stay ahead in business and agriculture.

William J. Kuhfuss, presi-

dent of the IAA since 1958, addressed a banquet the first night of the annual Farm Bureau - FFA holiday conference conducted in Bloomington and Normal December 27-29.

Kuhfuss labeled the FFA leaders as "tomorrow's businessmen in Illinois."

"There's no right formula for building a successful pattern of life...but there are standards and guidelines."

"Be tied closely with the kind of thinking, the kind of philosophy, and the kind of people that are right."

"Each of you today are building your pattern. The record you make today is permanent. Every opportunity you have to make a decision puts another stamp on the permanent record. Building a reputation takes a long time."

Kuhfuss challenged the young farmers to understand the things that have made America great. He commended today's young people

for being the "greatest ever" but added that they have had the "greatest opportunity."

The FFA holiday conference featured speakers, films, and discussions concerning topics such as the competitive enterprise system, ways of doing business, the Farm Bureau family of cooperatives, and individual responsibility.

Sponsored by the Illinois Agricultural Association and affiliated companies, the conference was held mainly on the campus of Illinois State University in Normal.

The agenda, however, included a tour of the IAA home office in Bloomington and a banquet in the building's cafeteria.

HORTICULTURE AND
FLORICULTURE

One Christmas tradition that is as American as apple pie is the use of poinsettias. The flower was discovered in Central America by an American diplomat and introduced to the horticultural trade by an American horticulturist.

It was as a confidential agent of President Madison in South America that Joe Poinsett started his diplomatic career. In this position Poinsett became watchful for interesting plant material for his home garden in Charleston. In fact he collected many rare shrubs and flowers in addition to his famous poinsettia.

In 1833 Poinsett sent some cuttings to Buist a Philadelphia florist. Buist named the new flower for Poinsett and introduced it to the public.

Since Poinsett bitterly opposed secession, he died in 1851 little appreciated or recognized by his Southern neighbors. The poinsettia remains as his memorial.

The natural flowering of the poinsettia is triggered by the length of day. Hence in North America when the days grow shorter it blooms about Christmas time. Thus we have adopted it as our Christmas flower.

Since the first poinsettia was introduced from Mexico several new varieties have been developed. There are reds such as Indianapolis, Barbara Ecke Supreme and Elizabeth Ecke. Newest of

all is the rare Middledawn. This is a cream colored poinsettia with a bar of pink down each bract.

Most important of all is the keeping quality of the new Mikkelsen type poinsettias. With routine care they retain their flowers to Easter. An expert can identify the Mikkelsen red, pink, white, and Middledawn varieties by their slightly smaller flower and their more elliptical shaped leaves. Regular poinsettias have holly or oak type leaves.

Many Florida visitors have seen double poinset-

tias. Their culture is not possible in Northern greenhouses because they demand very high light intensities.

In their native climate poinsettias are almost weedy small trees. A height of 15 or 20 feet is normal. Because of this greenhouse men find that their greatest problem with poinsettias is to keep them short. Several sprays of dwarfing or growth limiting chemicals are required for short stocky plants.

Care of your plant starts when you purchase it at the flower shop. Make certain that the plant is well wrapped and taken directly to a heated car. If chilled the plant will lose its leaves.

Once home give it plenty of water and full sunlight if possible. However, the new varieties will tolerate areas with poor light.

Mokena Lions Report Activities For Year

A summary of activities of the Mokena Lions Club for 1966 show it was a busy year for the organization.

Thru efforts of the membership the club raised \$2,147.30 in the course of the year which was spent on various enterprises in which the Lions are interested.

The annual fruitcake sale receipts are not included for 1966--not all of the members have reported in yet on their sales, according to Kenneth Helm, chairman, but he feels certain the figure will be greater than the receipts of \$987.25 for 1965.

The 1965 fruitcake sale receipts are a part of the \$2,147.30 referred to above.

The next largest single source of revenue was the amount taken in on Pancake Day--\$689.76. The windshield wash netted \$197.23 and the Fourth of July Festival \$265.06. Also included is an \$8 donation from an anonymous source.

Fortunately, officers said, there was a surplus from 1965 so the expenditures which exceeded the receipts were met. The amount spent was \$2,585.35.

The amount spent on

Christmas baskets this year is not yet available but the figures for 1965 was \$75. The other figures are for 1966 expenditures.

Christmas trees for three schools, \$34; eye glasses, \$137.90; library rent, \$300; library heating (old Lutheran church) \$110.02; library referendum, \$63.86; Easter Egg Hunt, \$25; well repairs, \$25; tot's playground equipment, \$274.25; playground maintenance and repairs, \$16.82; insurance B.S. Trailer, \$16; Mokena Burros, \$150; Mokena baseball, \$250; Girl Scouts, \$130; Mokena Fire Dept., \$100; Peace Essay Contest, \$37.50; Cook Co. 4-H Clubs, \$40; Trinity School for Retarded Children, \$450; Leader Dog Institute, \$100; Hadley School for the Blind, \$100; Camp Lions (for visually handicapped) \$100 and Dialogue (talking record for the blind) \$50.

Army Engineers To Make Area Survey

A number of surveys have been made to determine water sources for the Joliet and Lower Des Plaines Valley, including the Mokena

-Frankfort-New Lenox community and new Army Engineers of the Chicago District are to make one embracing Lake, Cook, DuPage and Will counties as well as a portion of Lake County, Indiana, which comprise the Chicago Metropolitan District.

The watersheds of the Little Calumet, the Fox and Kankakee rivers are not included, it was explained, because these watersheds are being considered in separately authorized studies.

A public hearing on the subject is to be held at 10 a.m. Feb. 2, 1967, in the Auditorium on the first floor of the Prudential Insurance Building, Randolph and Michigan Ave.

All parties interested are invited to be present or represented, according to the District Engineer's Office, including representatives of the federal, state, county and municipal governments, as well as those of civic groups, commercial and industrial interests, property owners

concerned and private citizens.

Oral statements are to be kept as brief as possible. Persons who want to get their views on record are advised to submit them in writing and if they do air them vocally to confine themselves to a brief summary.

Basic objectives of the study, it was explained, are (1) to identify the most desirable means of developing the area's water resources to meet the needs of a growing population and economy; and (2) to provide a basis for authorization of

federal assistance in construction of public works projects, if economically justifiable. The study's data and conclusions, it was pointed out, may thus assist in the formulation of policy to deal with the area's water resources problems.

We are often asked about Veteran's Burial allowances. The U. S. Government will pay \$250.00 toward funeral expenses, pay transportation from a Veteran's hospital to the place of burial, provide an American flag for the casket and in some cases, provide survivors a pension.

Further details can be learned by calling our number.

Mustangs Take Eagle Five In Tourney Play

Oak Lawn Spartans invade the Carl Sandburg gym for basketball action Jan. 6.

Sandburg played in the Rockford Classic tourney, a double - elimination affair. Rockford Boylan opposed the Eagles in the first game.

On Dec. 20, Evergreen Park pulled away in the last two minutes to a 64-52 win over the Eagles. The Eagles had rallied to within five points with about two minutes left, but Evergreen recovered a couple of turn-overs and scored on fast-break layups to pull away.

Sandburg led 12-9 at the end of the first quarter, but a 24 - point second period spurt by Evergreen gave them a halftime lead of 33-22. They led by at least 10-16 points the rest of the way, except for the last period Eagle rally.

Chuck Jaeger hit 11 field goals to lead all scorers. He scored his 22 points mainly on long jump shots from the side and an occasional tip-in. Center Kurt Pnazeck scored 12 and battled hard on the boards all night.

Joe Ziemba hit 8 of 12 field goal attempts, added four free throws for 20 points. Steve Hackelgarnered 16 Evergreen points, mostly on turnaround jumpers and hook shots from the near post. Forward Keith Sorrick was also in double figures with 13 points.

The Sophomore basketball team, coached by John Wil-

son, picked up a pair of victories last week to make their season record 5-1 overall, and 4-0 in conference play.

The young Eagles beat Evergreen Park 44-38 in the prelim Dec. 20. The next night, the sophs beat Downers Grove 58-21. Tom Devine scored 12 points to lead the balanced attack. Other point-makers were Mark Connell, 11; Jim Donnelly, 11; Jim Kirby, 6; Mark Buswell, 5; Bob Borg and Steve Kleinfeldt, 4 each; Gary Aukerman, 3; and Wayne Connors, 2. Connell, Kleinfeldt, and Donnelly were the leading rebounders with 7, 6, and 6 respectively. The Eagle sophs shot 41 per cent from the field with 23 goals in 56 attempts.

IN MEMORIAM
OF STANLEY KARKUT
"One year ago he bravely went To the task to which he was sent; Although he dwells with God above, Our darling Stanley, father and grandfather we will always Love." Ed Karkut Family

IN LOVING MEMORY

OF MY HUSBAND
CHMIELEWSKI, MARTIN V.
In loving memory of my beloved husband, our father, father-in-law and grandfather, Marty, who passed away 2 years ago Jan. 4.
No one knows how much we miss you, No one knows the bitter pain we have suffered. Since we lost you, Life has never been the same. In our hearts your memory lingers, Sweetly tender, fond and true; There is not a day, dear Marty, That we do not think of you.
Loving Wife,
Daughters,
Sons-in-law,
& Grandchildren

IN MEMORIAM

To the memory of John J. Murphy
Sept. 16, 1924 -- Jan. 7, 1966.
The following verse from the works of Rudyard Kipling, which in my heart I feel, is symbolic of my dear departed friend.
THE THOUSANDTH MAN
One man in a thousand, Solomon says, will stick more close than a brother. And it's worth while seeking him half your days If you find him before the other. Nine hundred and ninety-nine depend On what the world sees in you, But the Thousandth Man will stand your friend With the whole round world agin you.
'Tis neither promise nor prayer nor show Will settle the finding for 'ee. Nine hundred and ninety - nine of 'em go By your looks, or your acts, or your glory. But if he finds you and you find him, The rest of the world don't matter; For the Thousandth Man will sink or swim With you in any water.
You can use his purse with no more talk Than he uses yours for his spendings, And laugh and meet in your daily walk As though there had been no endings. Nine hundred and ninety-nine of 'em call For silver and gold in their dealings; But the Thousandth Man he's worth 'em all, Because you can show him your feelings.
His wrong's your wrong, and his right's your right, In season or out of season. Stand up and back it in all men's sight-With THAT for your only reason! Nine hundred and ninety-nine can't bide The shame or mocking or laughter, But the Thousandth Man will stand by your side To the end---and after.
A Friend

FRED DRAFKE SR.
In Loving Memory of my husband
and our father who passed away
1 year ago Jan. 3, 1966.
A golden gate stood open, one un-
happy day, with farewells left
unspoken, Dad quietly passed
away. God saw that he was suf-
fering he knew Dad needed rest.
Gods gardens must be beautiful
he only picks the best.
Sadly missed by his wife,

Check Grain

Farmers today were reminded to watch the condition of any grain under Commodity Credit Corporation loans which they have stored on farms.

Charles E. Deutschman, chairman, Will County Agricultural Stabilization and Conservation Committee, explained why farmers need to check closely on the condition of stored loan-grain to see how well it is keeping.

Under present program procedures, he pointed out, fewer inspections are made by the ASCS county office, and the farmer therefore has more responsibility for maintaining and watching his own stored grain. This is of definite advantage to the farmer himself, since his final returns will be based on the condition of the grain when it is delivered or the loan is paid off.

In cases where the grain is found to be deteriorating and some loss might occur, the chairman said, the farmer should notify the county office immediately so that arrangements may be worked out to move it. This will save the grain and at the same time benefit the farmer's pocketbook.

Graduate now and get a free copy of the famous Guinness Book of World Records—399 pages of factual (and hilarious) conversation-openers like these:

- The longest-known abbreviation in the world: S.O.M.K.H. P.S.K.J.O.S.S.D.P.M.W.D.T.B. (And the Guinness Book tells you what it's short for, too!)
- The longest face-slapping contest on record...when? where? and who? (Were *their* faces red!)
- The world's most unpronounceable word to an English-speaking person! (Clue: It rhymes with "thraszcz.")
- The longest flea jump! (Not to be confused with the *highest* flea jump, which Guinness also knows.)
